

Perfectly Adapted to You - From the album "Songs From the Trail"

[Intro]

Sym-bi-o-sis, what a wonderful word

Reminds me of the story of the flower and the bird

[V1]

[G]

I am a ruby-throated hummingbird and I love you

[D]

Cause you help me when I feed

Yeah, all the nectar that I guzzle is directly from your
muzzle

[C] [D] [G]

Oh, you give me what I need

[G]

I am a trumpet creeper flower, red and tubular

[D]

And you also meet my needs

Cause when you come and drink my nectar you become a
pollen vector

[C] [D] [G]

And you help me to make seeds

[Pre-chorus]

[C]

And though the leaves may fall, and all the trees grow
tall

[G]

Time keeps marching on through

[D]

But baby you and me, were meant to be

[C] [D] [G]

I'm perfectly adapted to you

[Chorus]

[C] [D] [G] [C] [D] [G] [D/F#]

Perfectly adapted to you, nature made a pair of two

[Em] [G]

Don't go changing for somebody new

[C] [D] [G]

Cause I am perfectly adapted to you

[V2]

I am a crocodile sliding through a slimy swamp and I'm
glad that we are kin

Because you eat the parasites, like the ticks and fleas and
mice

That are crawling on my skin

I am a type of birdie known as an Egyptian Plover and I'm
glad to watch your back

[Pre-chorus]

[Chorus]

Cause all the bugs and flies that otherwise would
compromise your health become my tasty snack

[Pre-chorus]

[Chorus]

[Bridge]

[Em][G][Em] [G] [C] [G]

Sym- bi- o- sis, I give to you, you give to me

[Em] [G] [Em][G]

We share with, each other

[C] [D][Eb][E]

Co-evolving in harmony

[V3]

[A]

Well, there are many other creatures in the natural world

[E]

That live in symbiosis too

[E]

It's amazing when ya take the time to understand

[D] [E] [A]

Just who relies on who
